

Pathway to Become a Certified Teacher

Bachelor of Science *Elementary Education*

Lake-Sumter State College offers the ability for you to continue to work in the K–12 setting during the day and take classes two nights per week to complete your Bachelor of Science (B.S.) in Elementary Education.

Benefits:

- Affordable tuition
- Built to work within your daily life
- Classes designed to create long lasting relationships with increased support (cohort model)
- Relevant assignments aligned to today's K–12 setting
- Anchored in partnerships in Lake & Sumter schools
- Two-year program

Internships

This program includes immersive paid learning components in local schools that accelerate your confidence and increase your skillset.

Scholarships

Scholarships are available to support the cost of this program from the Lake-Sumter State College Foundation. Visit lssc.edu/scholarships to learn more!

Location

This program will be offered with both online (primarily) and on-campus course requirements. Additional experiences in local schools will require travel.
