## Bachelor of Science *Elementary Education*

Are you ready to begin your transformative journey towards shaping young minds? The Bachelor of Science in Elementary Education not only equips you for state licensure to teach kindergarten through sixth grades but also allows you to earn Reading and ESOL endorsements, enhancing your versatility in the classroom. Throughout the program, you will have invaluable hands-on experiences through paid opportunities to job shadow at schools in Lake and Sumter Counties. This immersive approach empowers you to make a direct impact on future generations while preparing you for a fulfilling career as an elementary school teacher.

### Internships

This program includes immersive paid learning components in local schools that accelerate your confidence and increase your skillset.

### Scholarships

Scholarships are available to support the cost of this program from the LSSC Foundation. Visit [lssc.edu/scholarships](http://lssc.edu/scholarships) to learn more.

### Location

This program will be offered with both on-campus and online course requirements. Additional experiences in local schools will require travel.

Lake Sumter  
State College

Lake-Sumter is accredited by the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) to award associate and baccalaureate degrees. Lake-Sumter State College is an Equal Access/Equal Opportunity Institution.

The Elementary Education Bachelor's Degree Program is currently:

- Approved by the State Board of Education
- Approved by the SACSCOC
- Approval anticipated of a Initial Teacher Preparation Program by the FLDOE
